Redford Crown Glass.

THE subscribers would again beg leave to call the attention of those who contemplate building, to the Redford Crown Glass, an article well known, and extensively used in the Eastern cities, for its superior lustre and brilliancy of surface, as well as strength.

We should be pleased to show the samples we have, and to take orders to be filled, at the factory list price.

We would call attention to the annexed Extract from the Report of the Committee at the American Institute.

HENRY J. NAZRO & CO.

EXTRACT FROM THE REPORT OF THE COMMITTEE AT THE AMERICAN INSTITUTE.

"For richness of lustre and brilliancy of surface (as well as thickness and strength,) the Redford Glass is the most beautiful article of the kind that has fallen under our notice, either domestic or of foreign production, and it affords a proud specimen of the skill and enterprize of American manufacturers."

The undersigned having seen the above described Glass in a great number of first class buildings, both public and private, accord fully with the foregoing estimate of its merits, and particularly recommend it to all persons who require a strong, durable, and brilliant article.

THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, [illegible] the owner of the "Woodworth Patent," shortly after I [illegible] advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUING, AND GROOVING MACHINE" throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machine attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 19th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after the eight years' experimenting upon these machines, not one is in use of any value for the purposes contemplated.

"I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

"JAMES G. WILSON,
"May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer or pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

RULING OUT THE MECHANICS!

The extraordinary article in the *Commercial Advertiser* of the 13th instant, sneering at Mr. Farwell and his "claims" to the office of Governor, because he was a Mechanic, self-educated and self-made, and its yet more extraordinary [illegible] in the *Wisconsin* of the 14th, pronouncing [illegible] of the *Commercial's* sentiments as "[illegible]" call for some further comment [illegible]. The *Commercial*, unable to [illegible] and yet unwilling to abandon its position, [illegible] to show that we misrepresented its [illegible] sentiments. If we did so, our [illegible] the means before them of detecting [illegible], for we quoted the *Commercial's* language, word for word, and to avoid further cavil, [illegible] reproduce the objectionable paragraphs:

"It is claimed for Mr. Farwell that he is a right [illegible], a good natured, good hearted, [illegible], and one who is well liked in his [illegible]. These are all clever things, it is [illegible] the *abolition, Seward* candidate for the first office in Wisconsin, but could they not equally be applied to hundreds and thousands in our land? [illegible] *who never yet dreamed of their being possessed of the requisite qualifications for such a station?*

Where, how, and when did Mr. Farwell become qualified for so high an office? Did he ever serve in the Legislature? Has he ever been in the public councils of the State, or Territory, or held any place of confidence or trust among us? Who is he, and what has he been educated? It is said he was originally a *mechanic*, and is, consequently, entitled to great credit for having *made himself*—[illegible] highly so—no one will attempt to controvert it. We have good mechanics, and lots of them among us, men of intelligence and worth, and some of whom are well educated, capable men, men of genius, capacity and talents, *[illegible] the office of Governor of Wisconsin, [illegible] they had the requisite talents, experience [illegible] for such an office.*"

Now, let the Mechanics of this City, the Farmers and Workingmen of the State, "read, mark and inwardly digest" these paragraphs and decide for themselves whether our construction is [illegible] borne out by the language used. We not only insist that we interpreted the *Commercial* [illegible], but we have the approving comments of the [illegible] in our position. That journal, disagreeing with the *Commercial's* sentiments and disgusted with ours, lauds the former [illegible], and denounces, as "demagogueism" and "*Red Republicanism*," our strictures upon these anti-democratic doctrines. Nay more; the *Commercial* itself, gratified to find *one* ally in its onslaught upon Mr. Farwell and its depreciating [illegible] the Mechanics, buries the hatchet [illegible] so long wielded against the *Wisconsin* and [illegible] the calumet of peace.

"The Wisconsin and Laboring Men.—The *Wisconsin* of last evening, has *a just, fair and manly* article on the subject of fitness for office, &c."

Just to quote one sample from this "just, fair and manly article," that our readers may have some further light upon the *Commercial's real* sentiments. Hear the *Wisconsin*:

"We have always supposed that the Whig party [illegible] to embody the conservative principles and measures of our federal government; an article, however, in the *Sentinel* of this morning, [illegible] of the Whigs in this State, headed, "A Caution to Mechanics," expresses [illegible] red-republicanism—one-man-is-as-good-as-another-and-better-too" sentiments, we have ever yet seen in a paper professing to hold a conservative party, and *such as no true republican or a decent Democrat would desire to see promulgated.*"

This opinion the *Commercial* pronounces "fair, just and manly." Now what were the sentiments expressed by the *Sentinel*, which the *Wisconsin*, [illegible] by the *Commercial*, sets down as "Red Republicanism" and "such as no true Democrat" could uphold? Why, that Farmers and Mechanics had as good a right to "*aspire*" to public station in this free land, as any other class; that [illegible] claims to public favor could be preferred than those of a self-educated, self-made, upright, intelligent, enterprising man, like Leonard J. Farwell, *let his occupation be what it may*; and that he who teaches an opposite doctrine is false to Truth, false to Democracy, and [illegible] to Equal Rights! This, the *Wisconsin* [illegible] Red Republicanism." This according to that exclusively democratic sheet, is a doctrine [illegible] true republican or rational [illegible] would desire to see promulgated."—The criticism, says the *Commercial*, is "fair, just and manly!"

Farmers, Mechanics and Working-men of Wisconsin, what say you? Is it indeed "*Red Republicanism*" that we are preaching when we uphold your equal right and title, when duly qualified, to "*aspire*" to any office in the gift of Government or People? Is it a "fair, just and manly sentiment" that Leonard J. Farwell, being a Mechanic, and self-educated at that, without experience in office, ought not to "*aspire*" to the station of Governor, or "*dream* even of being possessed of the requisite qualifications" for such a post? When before was it discovered, or if discovered, thus openly avowed, that *class distinctions* constituted "rational Democracy?" By what later dispensation, from what new oracle, have these twin organs, the *Wisconsin* and *Commercial*, obtained authority to *rule out* Mechanics in the honorable competition for public office? What political pontiff, what Democratic conclave, has authorized these party organs to hurl their thunders against a useful and respected class of our fellow-citizens and punish their contumacious "aspirations" for places of public trust? Blind guides, false teachers, faithless champions, that they are; the true, living, *genuine* "Democracy" repudiates their support, and will rebuke their heresies! The Mechanics and Working-men of Wisconsin will show by their votes in November that *they*, at least, are not ashamed of their honest, true-hearted, intelligent and enterprising representative LEONARD J. FARWELL.

CANDIDATES FOR THE LEGISLATURE.

We hear of numerous "aspiring" gentlemen, (some of them "Mechanics" too, in the face and eyes of the *Commercial's* prohibition) who would like to represent this city in the Legislature. The ambition which prompts a man to seek the opportunity of rendering faithful and intelligent service to the community in which his lot is cast, is natural and praise-worthy. We would say nothing to check or discourage any such aspirations, when proceeding from right motives and warranted by the requisite qualifications. It should be borne in mind, however, by the electors of Milwaukee, that the approaching session of our State Legislature is to be one of *unusual* interest and importance. Assuming that the Bank question is to be favorably decided by the People, it becomes a matter of the *first consequence* that we should elect Senators and Assemblymen who are competent to give effect to the popular will by maturing *a sound system of Banking.* No man should be sent to the Legislature from this city, who is not an open and reliable advocate of Banks, and who does not possess sufficient character and ability to command influence at Madison. Our City interests have suffered in past years by the weakness of our local delegation.—*Now*, it is not only our City, but our State interests that are involved, and we owe it both to the State and the City to send to Madison this year *a first-rate Delegation.*

We take leave to suggest, therefore, that instead of the Candidates saying to the People, "We are the men for the place," THE PEOPLE, for once, make the selection to *suit themselves*. Let the candidates for the Senate and Assembly, one and all, *stand back*, and give the People fair play.—Let the electors in each District cast about and settle among themselves, who is, all things considered, and in the peculiar crisis of our State affairs, *the fittest man* to represent them at Madison. And having thus chosen let them invite the person so selected to become the candidate. It is scarcely possible that if the People, uninfluenced by the appeals of the Candidates themselves, or their respective friends, select their Senators and Assemblymen, as they do their Lawyers, their Doctors and their Tradesmen, they can fail to make a judicious and satisfactory choice, for they will consider then only the *fitness of the man for the place.*

STATE SUPERINTENDENT.—The Grant County *Herald*, which had not, until its last number, placed any name at the head of its columns as candidate for State Superintendent of Schools, now publishes Mr. LORD's admirable letter, and hoists his name as the Independent Candidate. We are gratified to learn that Mr. LORD's eminent abilities are appreciated by the people in the Western part of our State, and that, brought forward as he was by leading presses in the Democratic party, they show their sense of the importance of the office, and of his qualifications for it, by frowning down all idea of any party obligation.

If Dr. LORD were a better man for the post than Mr. LORD, we should cheerfully support him. As those who know him best say that he is not better, nor as good, we look confidently to Mr. LORD's election. The *Herald*, in announcing his name, says truly:

The office of State Superintendent, more than any other, concerns the whole people, of all religions and political creeds, of all ages, male and female. Keep it uncontaminated, we say, with any and all the abominable party preferences that but too often blight the objects favored and opposed alike. Let every attempt at political interference with the State School Fund, be treated as you would treat an attempt to introduce Mahomedanism.

PRODUCE THE PROOF!—The *Wisconsin*, caught in the same trap with the *Commercial*, tries to crawl out of the scrape by saying that our article is headed "a Caution to Mechanics."

"Assumed in effect, that any man of neither natural abilities above the lowest, nor education, nor political experience, is as much entitled to hold a responsible office, as one of precisely the contrary character."

It "assumed" nothing of the sort. No word or sentiment in it warrants so gross a misrepresentation. We challenge the proof and call upon the *Wisconsin to point out* the sentiments which it has denounced as "Red Republicanism," and such as "no rational Democrat could desire to see promulgated!" To the proof!

A BOTTLE.—The Willow River *Empire*, an Administration Whig paper, with the name of MILLARD FILLMORE at its mast head for President, does not hoist the mongrel Whig-Abolition State ticket.—[*Commercial Advertiser.*

No other paper has this news! The *Inquirer*, now before us, not only "hoists the Whig State ticket," but goes in strong for its support and bids us expect a good majority for it in St. Croix County. The *Commercial* must look some where else for a crumb of comfort in its desperate extremity. For our neighbors especial benefit we copy what the *Inquirer* says about the Whig ticket and the proceedings of the Whig State Convention:

We were happy to perceive that the action of the Whig State Convention was harmonious and entirely satisfactory; the ticket is a strong and popular one, and ought to call out the zealous and hearty support of the Whigs of Wisconsin.

☞ WE are an older and a better friend to the laboring man than the Editor of the *Sentinel*—we are not a pampered scion of wealth and blood—we are *of* the people and *with* them.—*Commercial Advertiser.*

"CODLIN's the friend, not SHORT. SHORT is all "very well in his way, but the *real* friend is CODLIN, not SHORT." "WE" are somebody, no doubt, if "WE" could only make people think so. "WE" came to Wisconsin to bring back the democracy from the error of their ways and drive 'em on to Gen. Cass' Baltimore Platform again, and if "WE" don't get another good, fat office for our pains, "WE" shall go back to Ohio, straight way. "WE" don't believe in MECHANICS "aspiring" to office, "WE" don't; for there ain't any more offices than "WE" want. Let Mechanics take care of their business, and "WE" will take care of the offices!

NEW TELEGRAPHING APPARATUS.—A correspondent of the N. Y. *Herald* describes a new telegraphic apparatus just completed in Philadelphia. Its advantages are said to be that it will operate during thunder storms: that the whole machine adjusts itself at every letter that is made; it will operate as fast as anybody can manipulate, there being but a single stroke necessary for a letter, and further that it repeats imperfect letters.

Now give us some contrivance to prevent trees from breaking the wires when they fall across them, and we shall do, for a while.

☞ The Sauk Co., *Standard* does not feel disposed to submit to the manoeuvring of the partizans of Mr. Butterfield, the Loco nominee for Senator in that district. It asks, very pertinently, "whether a small party leaving a Convention and holding a private meeting in some other place than that at which the Convention was called to meet, should be allowed to take precedence of a regular convention of a large majority of delegates? If so, it should be generally known, as it might have an important bearing on future conventions."

Things is workin!

Closing of Places of Business.

MILWAUKEE, October 13, 1851.

We, the undersigned, merchants of the city of Milwaukee, hereby jointly and severally agree to shut up our several places of business, during the coming winter, at 8 o'clock, P. M., commencing the 1st of November next:

J. R. Treat & Co.,
W. S. D. Super Chittle,
S. Gardiner, Jr.

We think the above move an excellent one, and hope to see it generally adopted. We hope, too, that our Merchants and Clerks will remember the Bell-Ringer, Mr. HENRY MIDDLETON, who, all last winter, sounded the eight o'clock signal for closing the stores, without any compensation to speak of, and who will be expected to render the same service during the coming winter, but *not*, we trust, without adequate pay.

The Whig Nominations.

The Oshkosh *Democrat*, while laboring openly for the success of the Madison Loco Foco ticket, is compelled to say a good word for our Whig nominations. Here is what it says of Messrs. FARWELL and TRUESDELL:

Its Nominee for Governor, Mr. Farwell, is universally conceded to be a man of ability, uprightness, and firm, moral worth.

With Mr. Truesdell, the Nominee for Attorney General, we are slightly acquainted, and we deem him a man of sterling worth, and one of the clearest and soundest lawyers we have met in the State.

We fear that the Democratic party overrates its great strength, &c.

The same paper has also the following notices of the Whig Senatorial and County Candidates:

The Whig Senatorial Convention, held at Fond du Lac, on Saturday last, nominated Bertine Pinckney, of Rosendale, as Candidate for Senator. Mr. Pinckney is a man of intelligence and ability, of most winning address, and is widely popular in his district.

It will be seen that D. C. Blodgett, Esq. of this place, was nominated as candidate for Assemblyman, and Dr. W. P. McAllister, of Omro for county Treasurer. They are gentlemen of fair ability, and of unimpeachable character, and where known, are personally very popular.

Great unanimity prevailed at the Convention, and the Whigs are highly elated with their ticket. They count on being successful. We confess that it is a strong ticket, and one that we must be up and doing to defeat.

THE NEW SOUTHERN PLOT.—The N. Y. *Tribune* closes an interesting article on the late movement in the northern Mexican States, with the following emphatic words:

Should the scheme be consummated there can be no doubt as to the sequel. So soon as these Northern Mexican States, shall, by the aid of Texan allies, establish their independence of the Central Government, the question of annexation will be raised, and *with it comes the question of Slavery Extension.* We warn the country of this, and we think we can assure the parties who egg on this business that when that question is brought up against Mr. Webster's famous vaticination will be realized. Then, God willing, *there will be a North!*

That there are leading men and leading presses at the South, fomenting and inciting these revolutionary attempts, with the direct design of adding more Slave States to the Union, let the following extracts from a late number of the New Orleans *Delta* on the subject prove:

The intelligence of a successful revolution in Mexico, will excite profound interest throughout the country, and *particularly in the South, where the necessity of counteracting the ambitious designs of the Northern portion of this Confederacy, by the acquisition of new territory, friendly to, and identified with, the South, has been felt as the only security against the final destruction and overthrow of our institutions.* We have long been cognizant of the design, which this news would lead us to believe and hope had been consummated.

We rejoice that a movement has been started with that object. It will command our warm support. The extraordinary proofs of hostility to the acquisition of Southern territory, which have lately been given at the North, in their opposition to Cuban independence, have impressed us more strongly than ever with the necessity of *prompt and antagonistic action on the part of the South.*—In the bitterness of their sectional hostility to the South, they were ready to forswear all the cherished principles of our Government, and all those humane sympathies and feelings which have heretofore characterized our whole population. Let us be warned by these manifestations, and take care of ourselves.

"Let us be warned by these manifestations!" The words are applicable North as well as South, and will fall on as willing ears. The avowed design of "enlarging the area of freedom" by enslaving more Mexican States, will be opposed earnestly and manfully, and thus, we fear, will ensue another fierce agitation of the slavery question, in comparison with which the last will be but child's play.

WAUKESHA COUNTY AGRICULTURAL SOCIETY.—The Farmers of Waukesha have organized an Agricultural Society and elected the following officers for the current year:

President—T. C. Dousman, of Ottawa.
Vice Presidents—Aaron Putnam, of Vernon, Geo. McWhorter, of New Berlin.
Recording Secretary—G. C. Cone, of Waukesha.
Corresponding Secretary—A. W. Randall, of Waukesha.
Treasurer—H. N. Davis, of Waukesha.
Executive Committee—Martin Field, of Mukwonago, John Hodgson, of Pewaukee, G. C. Pratt, of Waukesha, E. W. Edgerton, of Summit, C. H. Purple, of Brookfield.

At the first meeting of the Society, held at Waukesha last week, it was, on motion of Mr. A. W. RANDALL,

Resolved, That the Executive Committee correspond with the Agricultural Society of Milwaukee County on the subject of a union of the two societies, and report at a special meeting to be called by the Executive Committee.

We think the suggestion of Mr. RANDALL an excellent one, and doubt not that our Milwaukee County Society will co-operate very heartily in the measures necessary to effect the desired Union.

☞ Read the brief, plain and truthful account in our columns of LEONARD J. FARWELL's career in this State, and say whether such a man is not fit to be trusted with the management of public affairs. The greatest poet and philosopher in the English language has well said,

"* * * To thine own self be true
And it will follow, as the night the day,
Thou can'st not then be false to *any man.*"

Mr. FARWELL has proved "true to himself," and will prove equal to any trust his fellow-citizens may repose in him.

VAN BUREN STREET.—The *Wisconsin* says that the amount of labor that is done on this street, towards grading and beautifying it, is attributable to the fact that one of the Aldermen from the 1st Ward [illegible] an extensive property on it.

"* * * Whether the Wisconsin offered a reasonable solution of the matter may be doubtful—the Sentinel can probably tell.—[*Commercial Advertiser.*

So can Dr. JOHNSON, the very efficient Alderman of the first Ward, at whom the slurs of our co-temporaries are directed. Why not address their queries to him. We undertake to say that he will give them satisfactory answers.

THE VIRGINIA ELECTION.—A late despatch says that bets are offering largely on the election of Mr. SUMMERS, the Whig candidate for Governor of Virginia.

Secretary STUART, who well understands the feeling of the State, has expressed the opinion that Mr. SUMMERS' election is certain.

STATE TAX OF ILLINOIS.—The Chicago *Democrat* laments the increase in the expenditures of that State, and the "waste and extravagance" which have led to a tax this year of 60 cents on the hundred dollars.

What else can be expected, where the Loco Foco party has full swing, as it has in Illinois and Wisconsin?

PERSONAL HISTORY OF L. J. FARWELL.

Mr. Editor:

The *Commercial* of Monday morning, sneeringly asks the question, "Who is Mr. Farwell?" Having been personally acquainted with that *unknown* gentleman for many years, I propose to answer the *Commercial's* inquiry.

Leonard J. Farwell, about thirteen years ago, at the age of nineteen, left his native county of Jefferson, in the State of New York, to seek his fortune in the West. The trade of a Tin-smith, a small package of clothing in a handkerchief, a good character and about twenty dollars in money, comprised his entire property and estate. His means of travel carried him into the interior of the State of Michigan, where he spent his last dollar for a waggon ride to the place of his destination. He then borrowed two shillings to procure food, hired out as a journeyman Tin-smith for $14 per month, and worked one year with untiring assiduity at his trade. By the strictest economy in his expenses for dress and the necessaries of life, he was able to save a small sum as the product of hard labor, with which he journeyed on to Chicago, Ill.—there worked six weeks at his trade, and then came to Milwaukee, in the winter of 1839. For the next two years he worked at the Tinner's bench, averaging fourteen hours' labor per day. By his honesty and industry, he secured the confidence and patronage of the community, and as a necessary result, his labors met with encouraging reward. He added his ready means to his well-earned credit, and bought a stock of hardware in New York, and united the business of a Merchant with his trade. He did a large and prosperous business, was able to buy stock in the Eastern markets upon his own credit, to any extent he desired. He attended strictly to his business and met all his engagements with promptness and fidelity.

He soon obtained a competence, and desiring to rest a short time from the immediate cares of business, he deemed it a favorable time to improve his education, and with the ordinary means of reading and study, he wisely associated the aid of travel. He visited Cuba, England, Ireland, Scotland, the States of Europe and parts of Asia and Africa. He was careful everywhere to acquaint himself intimately, with the interest of a practical Mechanic, the improvements in the mechanical trades, manufactures, architecture and machinery, and in the light of his own experience, made himself acquainted with the agricultural and commercial interests of the countries he visited. He did not travel for mere pleasure, but for his own improvement.

His interesting letters, published in the Milwaukee *Sentinel*, during his absence, attest his sound and practical observations of the Society, Government, Trade and Agriculture of the old World.

He made it his especial business, in his tour, to seek out and encourage with his advice and counsel, all who wished to emigrate to this country, and very many, now enjoying our common blessings in Wisconsin, as thriving citizens, came here in *his* company, or by *his* advice. He returned to his home in Wisconsin, with a thorough knowledge of business, an intimate acquaintance with human nature, a valuable experience, and a clear judgment—an education far more important and useful, than the embellishments of literature. He then closed up his business in Milwaukee, located his clerks and apprentices in different parts of the State—loaned them capital to commence business for themselves, and laid the foundations of their future prosperity with his own hands.

He changed his location to Madison, and then, instead of loaning out his money at from 30 to 50 per cent, as he could have done, and as the law at that time permitted, he invested it in unimproved real estate, in the vicinity, developed a large water power, built mills after the best models—gave constant employment and good wages to a great number of laborers—cultivated his lands—opened streets and highways—introduced choice kinds of fruits and grains, and improved breeds of stock; in short, he became a marked example to others in like pursuits, in the neatness, system, and thrift of his husbandry. Madison has received a new impulse from his investments and enterprise, and the surrounding country is benefitted by his improvements. He has encouraged, in every way, the settlement of the country, and was among the first to welcome the immigrant, and if need be, give him a helping hand.

In all his interests, feelings and sympathies, he is identified with Wisconsin, and a friend to all her improvements. He is kind and affable to the poor, and contributes to public charity, on demand. He is rich, and he ought to be, for he "freely gives." All his business transactions in this State, for the last 12 years, prove his sound and enlightened judgment, discriminating and comprehensive knowledge of finance and trade, his promptness, and integrity, and his success is not attributable to *luck* or *chance*, but was the legitimate result of means, wisely adapted to the ends he sought to accomplish. He has always met his engagements, and paid the "full face of his paper." He is emphatically an instance of a man's becoming rich by "attending to his own business."

In his manners he is plain and unobtrusive, and in his purpose, independent and inflexible. Cool and dispassionate—he "thinks twice before he speaks once." He is too well proportioned, intellectually, to be a *genius*, as well as physically, to be a *prodigy*. He has never been a partizan in politics, and has never yet found time to be a politician. He has been far more useful to society than if he had been an office-seeker, and has chosen rather to do his own business *well*, than seek to do that of the public *poorly*. He is too manly to be a demagogue, and was never engaged in the business of "wire pulling." He never sought an office in his life, and never held one—that he did not fill with honor. He twice refused the nomination for Governor, and is now a candidate only by the urgent solicitations of his personal friends.

This is L. J. Farwell *now*, and if it is asked what he will be, I answer—he will soon be Governor of Wisconsin.

A DEMOCRAT,
Who has known him since 1837.

PUSH ON THE RAILROAD!—The Grant County *Herald* says truly:

The lower country can never secure the commerce of the Northwest; it must all go East by the Lakes—they are able to bid the highest for the reason that their demand is greater. What nonsense for us to look to the South for a market, while the East has dedicated her capital and enterprise to the promotion of Northwestern Commerce. We say again, that the East must have our trade; and that before five years Milwaukee and Chicago will exhibit such stacks of Pig-Lead as now line the wharfs at St. Louis and New Orleans.

Our friends of the South Western portion of the State are hard at work to secure the route of the Railroad through, and to their different towns, and we doubt not that they will be met with a liberal and accommodating spirit on the part of the Company. The Western trade *must* be brought to this City.

POST OFFICE STATISTICS.—The Postmaster at Frederick, Md., estimates that during the quarter ending September 30th—being the first quarter under the new cheap postage law—the number of letters received and sent from the Frederick office, amount to—prepaid, 35,049; not prepaid, 16,226; total, 51,275. During the preceding quarter, ending June 30th, under the old law the figures stood—prepaid, 8,520; not prepaid, 44,439, total, 52,963. Showing a diminution under the new system of 1688 (3 per cent.) in the whole number of mailed letters; while the number prepaid is more than four to one; and the number not prepaid is reduced to nearly one-third. There is already an increase of revenue at that office.

☞ The N. Y. *Herald*, the new organ of the "democracy," thus replies to the intimation of the Richmond *Enquirer* that the "Houston Correspondence" was *bogus*:

THE DONALDSON CORRESPONDENCE.—We are sorry the Richmond *Enquirer* will not appreciate our motives in publishing this correspondence.—There is no mistake about the genuineness of the letters to Donaldson and Greer. What will the *Enquirer* say, if the convention called for next June should be held, and nominate a leading democrat of the West for the Presidency? Would it like to have two democratic candidates in the field?

GRANT CO. WHIG NOMINATIONS.—The Whigs of Grant County have nominated for the State Senate, JACOB D. MERRITT; for Clerk, WOOD R. BEACH; for Treasurer, WM. T. BANOR.

The Convention in the 4th Assembly District nominated CYRUS SARGENT for Representative.—Mr. S., however, was compelled to decline, not being eligible to the seat.

The Whigs of Grant are up and doing.

CENSUS STATISTICS.—MASSACHUSETTS.—Total number of families, 192,679; white males 484[illegible], do females 501,420; free colored males 4,314, do females 4,481; total population 994,499.

KENTUCKY.—Total number of families 132,9[illegible]0; white males 392,849, do females 368,848; colored males 4,771, do females 4,965; total population 771,424; slaves 210,981; total population 982,405; federal representative population 898,012.

☞ The Free Soilers of the Assembly District composed of Troy, East Troy, and Spring Prairie, Walworth County, have nominated J. H. COOPER, of the latter town, as their candidate for Assembly.

Party Intolerance.

The Sauk Co. *Standard* does not seem to be particularly pleased with the manner in which the Hunker press is "kicking" out the *free soilers*. Alluding to the assertion of the Kenosha *Democrat* that the "heresy" had been kicked out, the *Standard* says:

The intolerance of some people is almost beyond endurance. We are democrats. We stand on the ground on which the democratic party, as a party, have stood for years past. We have not changed in the least particular. Neither have principles changed—the votes of 46 men can never make error assume even the appearance of truth, or because some designing men have succeeded in stifling the true sentiment of the Wisconsin democracy, and obtained a kind of passive assent on the part of the convention, to an old National platform, quite inapplicable in many respects to our state affairs, a few Hunker papers have taken upon themselves all at once to tell us who shall and who shall not be considered Democrats. Now we should suppose, naturally enough, that those who had abandoned the old established bases, and proved recreant to time honored principles, were the troublers and schismatics; while those who still contend for the same principles for which the party have labored, and with which they have conquered, are the true democracy; and surely this talk of "kicking out the free soilers," comes with a bad grace from a portion of the same party, when the part to be "kicked out" are clearly in the majority.

A "BLACK SWAN."—The Buffalo papers are noticing the musical achievements of a young colored woman who is about to give series of Concerts in that city. The *Commercial* of Saturday says:

"Those who heard her, came, we believe, to the unanimous conclusion that she was next to Jenny Lind, at least in her vocal powers. She has a great compass of voice—rising and falling from the highest to the lowest tones, with the greatest ease and rapidity, with 'intonations softly sweet, and anon thrilling and startling.' We understand that she will give a concert in this city at an early day—probably next week."

WELSH RELIGIOUS PAPERS.—Rev. Mr. Chidlaw, Agent for the American Sunday School Union, who is a Welshman, stated recently that the number of Welsh emigrants in this country is about 200,000. Among them circulate the following religious papers, published in their own strange tongue:—*The Cyfaill*, (Friend,) a Calvinistic, or Whitefield Methodist paper, published in New York; *The Cenhadwr*, (Missionary,) Congregationalist, published in Remsen, Oneida Co., N. Y., where also is published a general newspaper, called *The Detholydd*, (Eclectic); *The Seren Orllewinol*; (Western Star,) Baptist, published at Pottsville, Pa.; *The Drych*, (Mirror,) N. Y.

DOUGLAS' BID FOR SOUTHERN VOTES.—Senator Douglas, in the course of his late address at the New York State Fair, put in the following bid for Southern votes for the Presidency:

"Sugar from cane is produced to a great extent in the United States, but a larger portion is yet imported from foreign countries. Whether the United States will ever be able to produce the quantity required for their own consumption remains to be seen, and will, in all likelihood, depend on the *probable annexation of more Sugar growing States to the Union.*"

We are waiting to see the bids of Messrs. CASS and BUCHANAN.

MAMMOTH FRUIT.—The Geneva N. Y. *Courier*, says:

Mr. Jacob Cooper of Phelps, has placed on our table two pears, the most enormous in size we ever saw or heard of. They weigh two pounds each, and measure 14½ inches the shortest circumference, and well proportioned.

We knew that old Ontario was "some" in the line of fruit, but object to believing the above, until our friend Cleveland sends us a specimen. Are there no more of the same sort?

TIME WORKS WONDERS.—The Toronto *Examiner*, a leading Canadian paper, says:

We are free to confess, although we have not before alluded to it, that there is not, in our opinion, a man in Canada more deserving of a seat in the Cabinet than William Lyon McKenzie.

NEWS BY THE ASIA.

FRANCE.—Serious democratic disturbances are alleged to have broken out in the Cher. An armed force had left Paris for St. Armand. Several arrests have taken place. Among the persons are some who are understood to have been connected with the great fire at Metairies Iron Works.

The department abounds in secret societies, where oaths are administered.

The conductors of the Evenement and La Presse, the journals seized a few days since, have been each condemned to six months imprisonment and pay a fine of 10,000 francs.

The commercial accounts from Paris show a dull feeling, and the departments are even worse.

HOLSTEIN.—The Schleswig and Holstein affair remains unsettled and promises to again become troublesome.

AUSTRIA.—The failure of the Austrian loan has caused the deepest mortification at Vienna.

RUSSIA.—The line of railway between St. Petersburg and Moscow is to be open for traffic on Nov. 15th.

THE AUSTRIAN ARMY *vs.* THE CONSTITUTION.—The Prince Schwartzenberg, Military Governor of Lemberg, announced to his officers in the following remarkable terms, the Imperial ordinances of the 20th of August:

"Gentlemen—I have to inform you that the army of his Imperial Majesty has obtained another victory. I have in my hands the Imperial orders abolishing the constitution, and all that appertains to it. This is very good news, but I must request, gentlemen, that you will not display your joy in public, lest any demonstrations against the government should ensue."

It will be seen that the besotted adherents of despotism declare in so many words, that the suppression of constitutional government in Austria, is the work of the armed force. The people will remember this fact!

Tariff Facts.

Every class of American workmen suffer from the British Locofoco Tariff of '46; but the Iron-Workers are the chief sufferers. In 1843, we imported 7,148 tons of British Pig Iron. Our importations in 1849, under the Tariff of '46, amounted to 96,228 tons!

In 1843, we imported 21,336 tons of British Bar Iron. Our importations in 1849, amounted to 238,621 tons!

The total exports of British Bar Iron in 1843, was 176,149 tons. In 1849, it amounted to 376,117 tons. So that the increase from '43 to '49, was 28,000 tons less than the increase of importations to this country. While our own Iron Workers are bankrupt, we are enriching the British manufacturers!

In 1846—before the Tariff of that year went into effect—the imports of dutiable goods into the city of New York, in the month of September, amounted to $5,272,923. During the same month of the present year, they reach the enormous sum of $10,053,475.

The imports last year were deemed ruinously large, those at New York, for the first three quarters of the year, amounting to $96,174,432. But the imports of the present year, at the same point, during the same period, amount to the enormous sum of $107,385,216—an increase of $11,211,784. Is it strange, with such facts before us, that there is a stringency in the money market?—*Albany Eve. Jour.*

Shipwreck on Lake Superior!—Loss of the Monticello!

INTREPID CONDUCT OF MR. WESTBROOK!

By passengers upon the propeller Monticello, (apprehensions for the safety of which have been heretofore expressed,) we learn that she was discovered to be leaking badly, soon after leaving the Ontonagon, and notwithstanding the incessant exertions of passengers, crew and officers, she continued to settle until her fires were put out.—The terrific gale, which was experienced here two weeks ago last Friday, was blowing, and Capt. Wilson had no resort left but to set his sails, and endeavor to reach Copper Harbor; finding that to be impracticable, he made for the nearest shore, and beached her above Copper Harbor in two fathoms of water. The passengers were saved by the intrepid coolness of Mr. WESTBROOK of St. Clair, who took a rope to the shore through the surf, in doing which he was *eight times* swamped! By the means of this rope, the lives of all on board were saved!

The propeller belonged to Col. McKNIGHT, and was insured for about $11,000. She will be a total loss, as well as her cargo, which was 30 tons of copper.—[Detroit Advertiser.

MOLLY STARK'S BONNET.—In the window of Mr. Collin's bonnet store in Central building, we observed a very odd looking article, which, to the best of our judgment, must have been made for a bonnet. On inquiry we ascertained that it was a bonnet made about a hundred years ago, and was once the property of the veritable Molly Stark, who didn't sleep a widow on the night of the battle of Bennington. The fabric of which it is constructed is silk warp and filled in with alternate stripes of straw and silk. Its shape bears not a very distant resemblance to a peacock with his plumes spread. Its pattern is supposed to have been Scotch, and it is stated that the original cost was fifteen to twenty dollars. It was doubtless in its time one of the bonnets of old Derryfield.—[*Manchester Amer.*

City Matters.

ACCIDENT TO THE ARCTIC.—A telegraph dispatch, received last evening from Chicago, states that the *Arctic* has broke down, and that the *St. Louis*, with her mails and passengers, may be expected here this morning.

A MUSS.—We learn that a disturbance took place at a tavern called the Mexican House, on the Green Bay road, a short distance from town, late on Tuesday night, and that a German was struck on the head and badly injured. There were a couple of arrests yesterday in consequence.

OIL PAINTINGS.—The Oil Paintings referred to a day or two since as being opened at Messrs. SEA & SHERMAN's, are to be sold on Monday next, 20th inst. They are now to be seen at the rooms, No. 100 East Water St.

CITY LOTS AT AUCTION.—WALL sells this morning a large number of eligible lots in Sherman's addition. Those who wish to purchase will be on hand, and as many of the lots are very desirable a very spirited bidding is expected.

TRIAL OF SAFES.—One of Davidson's Safes underwent a "fiery trial" of three hours yesterday. The furnace was up to a white heat. One of Herring's was in the same fire. Davidson's was unscathed—the paper inside as cold as if it had been surrounded by an ice-berg instead of a fiery furnace. The papers in Herring's were also unscathed, but warm.—[*Albany Jour.*

Messrs. WELLS & HILL, at the Yellow Warehouse, are agents for Davidson's celebrated safe, referred to in the above article, and advertised in our paper under the name of "Covert's Patent Fire King". Such cases as the above test a safe to perfect satisfaction.

THE MACEDONIAN.—The old frigate *Macedonian* captured from the British in the last war, has just been taken into dry dock at Brooklyn, to be razeed into a corvette. She is to carry 20 eighty-four pounder shell-guns on her main deck, and two long pivot-guns of 12 inch bore, on her spar deck.

TROTTING.—There is to be a trotting match for $200, mile heats, best 3 in 5, this afternoon, over the Cold Spring Course; and trots for purses of $50 and $75 to-morrow and Saturday.

COMMERCIAL.

New York, Oct. 10.

There was a good demand to-day among dealers in State money, and it was freely purchased at ¼ ℔c discount, and Eastern at ¼ ℔c. It was supposed that about $20,000 in specie was sent up to Albany this afternoon to redeem bills falling due to-morrow. James' Bank Bills are purchased in Wall-st. at 25c; Farmers' Bank of Mina at 10c., and those of New Rochelle at 10 ℔c. discount.

There is no change to note in money matters, except a growing confidence in relief from the future. The rates show no alleviation. First-class paper is passed at 10@15 ℔c; other kinds 18@24, and some, which in ordinary times is looked upon as fair, goes at 3 ℔c. per month. On call the price is 7@12 ℔c. The banks feel stronger, but do not materially increase their loans.

Oswego, October 10.

There was a sale yesterday of 9500 bu Ohio wheat at 72c, delivered to boats. Also a shipment yesterday of 1050 bbls of Flour to the Ogdensburgh Railroad.

MONEY MATTERS.—We have it from a reliable source that there has been withdrawn from circulation, currency issued by the circulating banks for the following sums, and the stocks on which it was predicated either sold or hypothecated:

New York	money	$900,000
New Jersey	do	100,000
Michigan	do	150,000
Total		$1,150,000

The amount of currency above named was circulated principally in this city. It is also stated that a larger sum in State money has been withdrawn by the other country banks. All this withdrawal of currency has occurred within fifteen days.—*N. Y. Express.*

SPECIE.—The total exports of specie from the port of New York for the week ending Oct. 4th, were $63,669 against $1,300,612 the previous week:

Previously reported	31,325,437
Total	$31,389,106

Coit & Welch, at their wool depot, of about 30,000 lbs, nearly all of their present stock, consisting of 3000 lbs Western New York, 2000 lbs No. 1 and lambs' pulled, 4000 lbs Canada combing, and the balance mixed Western Penn., Ohio and Michigan, at an average of 34c.—Buffalo Express.

IN calling attention to Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla, we feel confident that we are doing a service to all who may be afflicted with Scrofulous, and other disorders originating in hereditary taint or from impurity of the blood. We have known instances within the sphere of our acquaintance where the most formidable distempers have been cured by the use of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla alone.

It is one of the few advertised medicines that cannot be stigmatized with quackery; for the "Yellow Dock," and the "Sarsaparilla" are well known to be the most efficient (and at the same time innoxious) agents in the whole Materia Medica, and by far the best and purest preparation of them is Dr. Guysott's Yellow Dock and Sarsaparilla.

We would call attention to the annexed Extract from the Report of the Committee at the American Institute.
HENRY J. NAZRO & CO.

EXTRACT FROM THE REPORT OF THE COMMITTEE AT THE AMERICAN INSTITUTE.
"For richness of lustre and brilliancy of surface (as well as thickness and strength) the Redford Glass is the most beautiful article of the kind that has fallen under our notice, either domestic or of foreign production, and it affords a proud specimen of the skill and enterprize of American manufacturers."
The undersigned having seen the above described Glass in a great number of first class buildings, both public and private, accord fully with the foregoing estimate of its merits, and particularly recommend it to all persons who require a strong, durable, and brilliant article.

THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to Americans as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any dispute should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machine attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that the self and substantially the machine now claimed by several pretending inventors, is described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

RULING OUT THE MECHANICS!

[illegible] article in the *Commercial* [illegible] the 13th instant, sneering at Mr. [illegible] and his "claims" to the office of Governor, [illegible] was a Mechanic, self-educated [illegible] and its yet more extraordinary [illegible] of the 14th, pronouncing [illegible] of the *Commercial's* sentiments [illegible] call for some further com[illegible]. The *Commercial*, unable to [illegible] unwilling to abandon its position, [illegible] that we misrepresented its [illegible] sentiments. If we did so, our [illegible] before them of detecting [illegible] the *Commercial's* [illegible] word, and to avoid further cavil, [illegible] the object of the paragraphs:

[illegible] Mr. Farwell, that he is a right [illegible] a good natured, good hearted [illegible] one who is well liked in [illegible]. These are all clever things, it is [illegible] of the *abolition, Second* candidate [illegible] in Wisconsin, but could they [illegible] be applied to hundreds and thousands [illegible] *who never* [illegible] *of their being possessed of the re*[illegible] *for such a station?*

[illegible] and when did Mr. Farwell become [illegible] an office? Did he ever serve in [illegible]? Has he ever been in the public [illegible] the State, or Territory, or held any [illegible] trust among us? Who is [illegible] been educated? It is said [illegible] *mechanic*, and is, consequently, [illegible] credit for having *made himself* [illegible] highly [illegible] no one will at [illegible]. We have good mechanics, [illegible] men of intelligence [illegible] of whom are well educated, [illegible] genius, capacity and talents, [illegible] *of that class who have ever* [illegible] *office of Governor of Wisconsin,* [illegible] *had the requisite talents, expe*[illegible] *for such an office.*

[illegible] Mechanics of this City, the Farm[illegible] Workingmen of the State, "read, [illegible] directly direct" these paragraphs and [illegible] whether our construction is [illegible] borne out by the language used. We [illegible] that we interpreted the *Commercial* [illegible] the approving comments on [illegible] in our position. That [illegible] with the *Commercial's* senti[illegible] with ours, leads the former [illegible] as "demagogueism" and [illegible] our strictures upon these [illegible] doctrines. Nay more; the *Com*[illegible] gratified to the [illegible] in its on[illegible] Mr. Farwell and its depreciating [illegible] the Mechanics, buries the hatchet [illegible] the *Wisconsin* and [illegible] calumet of peace!

[illegible] AND LABORING MEN.—The *Wiscon*[illegible] has *a just, fair and manly* ar[illegible] the subject of fitness for office, &c.

[illegible] one sample from this "just, fair [illegible] article," that our readers may have [illegible] upon the *Commercial's* [illegible] the *Wisconsin*:

[illegible] supposed that the Whig party [illegible] the conservative principles [illegible] of our federal government; an [illegible] in the *Sentinel* of this morning, [illegible] of the Whigs in this State, [illegible] to Mechanics," expresses [illegible] *Red Republicanism*—" ones [illegible] yet seen in a paper pro[illegible] party, and *such as* [illegible] *Democrat could de*[illegible] *promulgated.*

[illegible] the *Commercial* pronounces "fair, [illegible]" Now what were the sentiments [illegible] the *Sentinel*, which the *Wisconsin*, [illegible] *Commercial*, sets down as "Red Re[illegible]" and "such as no true Democrat" [illegible] that Farmers and Mechanics [illegible] to "*aspire*" to public [illegible] any other class; that [illegible] to public favor could be pre[illegible] self-educated, self-made, [illegible] enterprising man, like [illegible] FARWELL, *let his occupation be what* [illegible] that he who teaches an opposite [illegible] to Truth, false to Democracy, and [illegible] Rights! This, the *Wiscon*[illegible] Red Republicanism." This, ac[illegible] democratic sheet, is a [illegible] true republican or rational [illegible] to see promulgated."—[illegible] the *Commercial*, is "fair, [illegible]"

[illegible] MECHANICS and WORKINGMEN of [illegible] is it indeed "*Red* [illegible]" that we are preaching when we [illegible] right and title, when duly [illegible] to "*aspire*" to any office in the gift of [illegible] People? Is it not fair, just and [illegible] that LEONARD J. FARWELL, [illegible] self-educated at that, with[illegible]cal experience in office, ought not to "*aspire*" to the station of Governor, or "*dream* even of being possessed of the requisite qualifications" for such post? When before was it discovered, or if discovered, thus openly avowed, that *class distinction* constituted "national Democracy?" By what later dispensation, from what new oracle, [illegible] these twin organs, the *Wisconsin* and *Commercial* obtained authority to *rule out* MECHANICS in the honorable competition for public office? What political pontiff, what Democratic convention, has authorized these party organs to hurl their thunders against a useful and respected class of our fellow-citizens and punish their contumacious "aspirations" for place or public trust? Blind [illegible] champions, they [illegible] "Democracy" [illegible] their support, and will rebuke the [illegible]. The MECHANICS and WORKINGMEN of Wisconsin will show by their votes in November [illegible] at least, are not ashamed of their brave, [illegible]hearted, intelligent and enterprising representative LEONARD J. FARWELL.

CANDIDATES FOR THE LEGISLATURE.

We hear of numerous "aspiring" gentlemen (some of them "MECHANICS" too, in the face and eyes of the *Commercial's* prohibition) who would like to represent this city in the Legislature. The ambition which prompts a man to seek the opportunity of rendering faithful and intelligent service to the community in which his lot is cast, is natural and praise-worthy. We would say nothing to check or discourage any such aspirations, when proceeding from right motives and warranted by the requisite qualifications. It should be borne in mind, however, by the electors of Milwaukee, that the approaching session of our State Legislature is to be one of *unusual* interest and importance. Assuming that the BANK question is to be favorably decided by the People, it becomes a matter of the *first consequence* that we should elect Senators and Assemblymen who are competent to give effect to the popular will by maturing *a sound system of Banking*. No man should be sent to the Legislature from this city who is not an open and reliable advocate of Banks, and who does not possess sufficient character and ability to command influence at Madison. Our City interests have suffered in past years by the weakness of our local delegation.—*Now*, it is not only our City, but our State interests that are involved, and we owe it both to the State and the City to send to Madison this year *a first-rate Delegation*.

We take leave to suggest, therefore, that instead of the Candidates saying to the People, "We are the men for the place," THE PEOPLE, for once, make the selection to *suit themselves*. Let the candidates for the Senate and Assembly, one and all, *stand back*, and give the People fair play.—Let the electors in each District cast about and settle among themselves, who is, all things considered, and in the peculiar crisis of our State affairs, *the fittest man* to represent them at Madison. And having thus chosen let them invite the person so selected to become the candidate. It is scarcely possible that if the People, uninfluenced by the appeals of the Candidates themselves, or their respective friends, select their Senators and Assemblymen, as they do their Lawyers, their Doctors and their Tradesmen, they can fail to make a judicious and satisfactory choice, for they will consider then only the *fitness of the man for the place*.

STATE SUPERINTENDENT.—The Grant County *Herald*, which had not, until its last number, placed any name at the head of its columns as candidate for State Superintendent of Schools, now publishes Mr. LORD's admirable letter, and hoists his name as the Independent Candidate. We are gratified to learn that Mr. LORD's eminent abilities are appreciated by the people in the Western part of our State, and that, brought forward as he was by leading presses in the Democratic party, they show their sense of the importance of the office, and of his qualifications for it, by frowning down all idea of any party obligation.

If Dr. LORD were a better man for the post than Mr. LORD, we should cheerfully support him. As those who know him best say that he is not better, nor as good, we look confidently to Mr. LORD's election. The *Herald*, in announcing his name, says truly:

The office of State Superintendent, more than any other, concerns the whole people, of all religions and political creeds, of all ages, male and female. Keep it uncontaminated, we say, with any and all the abominable party preferences that but too often blight the objects favored and opposed alike. Let every attempt at political interference with the State School Fund, be treated as you would treat an attempt to introduce Mahometanism.

PROVE IT, THE PROOF!—The *Wisconsin*, caught in the same trap with the *Commercial*, tries to crawl out of the scrape by saying that our article, headed "a Caution to Mechanics,"

"Assumed in effect, that any man of neither natural abilities above the lowest, nor education, nor political experience, is as much entitled to hold a responsible office, as one of precisely the contrary character."

It "assumed "nothing of the sort. No word or sentiment in it warrants so gross a misrepresentation. We challenge the proof and call upon the *Wisconsin to point out* the sentiments which it has denounced as "Red Republicanism," and such as "no rational Democrat could desire to see promulgated!" To the proof!

A BOTTLER.—The Willow River *Enquirer*, an Administration Whig paper, with the name of MILLARD FILLMORE, at its mast head for President, does not hoist the mongrel Whig-Abolition State ticket.—[*Commercial Advertiser*.

No other paper has this news! The *Enquirer*, now before us, not only "hoists the Whig State ticket," but goes in strong for its support and bids us expect a good majority for it in St. Croix County. The *Commercial* must look somewhere else for a crumb of comfort in its desperate extremity. For our neighbors' especial benefit we copy what the *Enquirer* says about the Whig ticket and the proceedings of the Whig State Convention:

We were happy to perceive that the action of the Whig State Convention was harmonious and entirely satisfactory; the ticket is a strong and popular one, and ought to call out the zealous and hearty support of the Whigs of Wisconsin.

☞ WE are an older and a better friend to the laboring man than the Editor of the *Sentinel*—we are not a pampered scion of wealth and blood—WE are *of* the people and *with* them.—*Commercial Advertiser.*

"COBURN's the friend, not SHORT. SHORT is all "very well in his way, but the *real* friend is COBURN, not SHORT." "WE" are somebody, no doubt, if "WE" could only make people think so. "WE" came to Wisconsin to bring back the democracy from the error of their ways and drive 'em on to Gen. Cass' Baltimore Platform again, and if "WE" don't get another good, fat office for our pains, "WE" shall go back to Ohio, straightway. "WE" don't believe in MECHANICS "aspiring" to office. "WE" don't; for there ain't any more offices than "WE" want. Let Mechanics take care of their business, and "WE" will take care of the offices!

NEW TELEGRAPHING APPARATUS.—A correspondent of the N. Y. *Herald* describes a new telegraphic apparatus just completed in Philadelphia. Its advantages are said to be that it will operate during thunder storms; that the whole machine adjusts itself at every letter that is made; it will operate as fast as anybody can manipulate, there being but a single stroke necessary for a letter, and further that it repeats imperfect letters.

Now give us some contrivance to prevent trees from breaking the wires when they fall across them, and we shall do, for a while.

☞ The Sauk Co. *Standard* does not feel disposed to submit to the manœuvring of the partizans of Mr. Butterfield, the Loco nominee for Senator in that district. It asks, very pertinently, "whether a small party leaving a Convention, and holding a private meeting in some other place than that at which the Convention was called to meet, should be allowed to take precedence of a regular convention of a large majority of delegates? If so, it should be generally known, as it might have an important bearing on future conventions."

Things is workin!

We think the above move an excellent one, and hope to see it generally adopted. We hope, too, that our Merchants and Clerks will remember the Bell-Ringer, Mr. HENRY MOORHOUSE, who, all last winter, sounded the eight o'clock signal for closing the stores, without any compensation to speak of, and who will be expected to render the same service during the coming winter, *but not*, we trust, without adequate pay.

The Whig Nominations.

The Oshkosh *Democrat*, while laboring openly for the success of the Madison Loco Foco ticket, is compelled to say a good word for our Whig nominations. Here is what it says of Messrs. FARWELL and TRUESDELL:

Its Nominee for Governor, Mr. Farwell, is universally conceded to be a man of ability, uprightness, and firm, moral worth.

With Mr. Truesdell, the Nominee for Attorney General, we are slightly acquainted, and we deem him a man of sterling worth, and one of the clearest and soundest lawyers we have met in the State.

We fear that the Democratic party overrates its great strength, &c.

The same paper has also the following notices of the Whig Senatorial and County Candidates:

The Whig Senatorial Convention, held at Fond du Lac, on Saturday last, nominated Bertine Pinckney, of Rosendale, as Candidate for Senator. Mr. Pinckney is a man of intelligence and ability, of most winning address, and is widely popular in his district.

It will be seen that D. C. Blodgett, Esq., of this place, was nominated as candidate for Assemblyman, and Dr. W. P. McAllister, of Omro for county Treasurer. They are gentlemen of rare ability, and of unimpeachable character, and where known, are personally very popular.

Great unanimity prevailed at the Convention and the Whigs are highly elated with their ticket. They count on being successful. We confess that it is a strong ticket, and one that we must be up and doing to defeat.

THE NEW SOUTHERN PLOT. The N. Y. *Tribune* closes an interesting article on the late movement in the northern Mexican States, with the following emphatic words:

Should the scheme be consummated there can be no doubt as to the sequel. So soon as those Northern Mexican States shall, by the aid of Texan allies, establish their independence of the Central Government, the question of annexation will be raised, and *with it comes the question of Slavery Extension*. We warn the country of this, and we think we can assure the parties who are on this business that when that question is brought up again Mr. Webster's famous vaticination will be realized. Then, God willing, *there will be a North!*

That there are leading men and leading presses at the South, fomenting and inciting these revolutionary attempts with the direct design of adding more Slave States to the Union, let the following extracts from a late number of the New Orleans *Delta* on the subject prove:

The intelligence of a successful revolution in Mexico, will excite profound interest throughout the country, and *particularly in the South, where the necessity of counteracting the ambitious designs of the Northern portion of this Confederacy, by the acquisition of new territory, friendly to us in all its identity with the South, has been felt as the only security against the final destruction and overthrow of our institutions.* We have long been cognizant of the design, which this news would lead us to believe and hope had been consummated.

We rejoice that a movement has been started with this object. It will command our warm support. The extraordinary proofs of hostility to the acquisition of Southern territory, which have lately been given at the North, in their opposition to Cuban independence, have impressed us more strongly than ever with the necessity of *prompt and antagonistic action on the part of the South.*—In the bitterness of their sectional hostility to the South, they were ready to forswear all the cherished principles of our Government, and all those humane sympathies and feelings which have heretofore characterized our whole population. Let us be warned by these manifestations, and take care of ourselves.

"Let us be warned by these manifestations!" The words are applicable North as well as South, and will fall on as willing ears. The avowed design of "enlarging the area of freedom" by [illegible] slaving more Mexican States, will be opposed earnestly and manfully, and thus, we fear, will ensue another fierce agitation of the slavery question, in comparison with which the last will be but child's play.

WAUKESHA COUNTY AGRICULTURAL SOCIETY.—The Farmers of Waukesha have organized an Agricultural Society and elected the following officers for the current year:

President—T. C. DOUSMAN, of Ottawa.
Vice Presidents—Aaron Putnam, of Vernon, Geo. McWhorter, of New Berlin.
Recording Secretary—J. C. Cone, of Waukesha.
Corresponding Secretary—A. W. Randall, of Waukesha.
Treasurer—H. N. Davis, of Waukesha.
Executive Committee—Martin Field, of Mukwonago, John Hodgson, of Pewaukee, G. C. Pratt, of Waukesha, E. W. Edgerton, of Summit, C. H. Purple, of Brookfield.

At the first meeting of the Society, held at Waukesha last week, it was, on motion of Mr. A. W. RANDALL,

Resolved, That the Executive Committee correspond with the Agricultural Society of Milwaukee County on the subject of a union of the two societies, and report at a special meeting to be called by the Executive Committee.

We think the suggestion of Mr. RANDALL an excellent one, and doubt not that our Milwaukee County Society will co-operate very heartily in the measures necessary to effect the desired Union.

☞ Read the brief, plain and truthful account in our columns of LEONARD J. FARWELL's career in this State, and say whether such a man is not fit to be trusted with the management of public affairs. The greatest poet and philosopher in the English language has well said,

"To thine own self be true
And it will follow, as the night the day,
Thou can'st not then be false to *any man*."

Mr. FARWELL has proved "true to himself," and will prove equal to any trust his fellow-citizens may repose in him.

VAN BUREN STREET.—The *Wisconsin* says that the amount of labor that is done on this street, towards grading and beautifying it, is attributable to the fact that one of the Aldermen from the 1st Ward has an extensive property on it.

Whether the Wisconsin offered a reasonable solution of the matter, may be doubtful—the sentinel can probably tell.—[*Commercial Advertiser.*

So can Dr. JOHNSON, the very efficient Alderman of the first Ward, at whom the slurs of our contemporaries are directed. Why not address their queries to him. We undertake to say that he will give them satisfactory answers.

THE VIRGINIA ELECTION.—A late despatch says that bets are offering largely on the election of Mr. SUMMERS, the Whig candidate for Governor of Virginia.

Secretary STUART, who well understands the feeling of the State, has expressed the opinion that Mr. SUMMERS' election is certain.

STATE TAX OF ILLINOIS.—The Chicago *Democrat* laments the increase in the expenditures of that State, and the "waste and extravagance" which have led to a tax this year of 60 cents on the hundred dollars.

What else can be expected, where the Loco Foco party has full swing as it has in Illinois and Wisconsin?

PERSONAL HISTORY OF L. J. FARWELL.

Mr. Editor:

The *Commercial* of Monday morning energetically asks the question, "Who is Mr. Farwell?" I, who have been personally acquainted with that *unknown* gentleman for many years, I propose to answer the *Commercial's* inquiry.

Leonard J. Farwell, about thirteen years ago, at the age of nineteen, left his native county of Jefferson, in the State of New York, to seek his fortune in the West. The trade of a Tinsmith, a small package of clothing in a bandkerchief, a good character and about twenty dollars in money, comprised his entire property and estate. His means of travel carried him into the interior of the State of Michigan, where he spent his last dollar for a wagon ride to the place of his destination. He then borrowed two shillings to procure food, hired out as a journeyman Tinsmith at $14 per month, and worked one year with untiring assiduity at his trade. By the strictest economy in his expenses for dress and the necessaries of life, he was able to save a small sum as the product of his labor, with which he journeyed on to Chicago. He there worked six weeks at his trade, and then came to Milwaukee, in the winter of 1839. For the next two years he worked at the Tinner's bench, averaging fifteen hours' labor per day. By his honesty and industry, he secured the confidence and patronage of the community, and as a necessary result, his labors met with encouraging reward. He added his ready means to his well-earned credit, and bought a stock of hardware in New York, and united the business of a Merchant with his trade. He did a large and prosperous business, was able to buy stock in the Eastern markets upon his own credit, to any extent he desired. He attended strictly to his business and met all his engagements with promptness and fidelity.

He soon obtained a competence, and desiring rest a short time from the immediate care of business, he deemed it a favorable time to improve his education, and with the ordinary means of reading and study, he wisely associated the aid of travel. He visited Cuba, England, Ireland, Scotland, the States of Europe and parts of Asia and Africa. He was careful everywhere to note minutely, with the interest of a practical Mechanic, the improvements in the mechanical trades, manufactures, architecture and machinery, and in the light of his own experience, made himself acquainted with the agricultural and commercial interests of the countries he visited. He did not travel for mere pleasure, but for his own improvement.

His interesting letters, published in the Milwaukee *Sentinel*, during his absence, attest his sound and practical observations of the Society, Government, Trade and Agriculture of the old World.

He made it his especial business, in his tour, to seek out and encourage with his advice and counsel, all who wished to emigrate to this country, and very many, now enjoying our common blessings in Wisconsin, as thriving citizens, came here in *his* company, or by *his* advice. He returned to his home in Wisconsin, with a thorough knowledge of business, an intimate acquaintance with human nature, a valuable experience, and a clear judgment—an education far more important and useful, than the embellishments of literature. He then closed up his business in Milwaukee, located his clerks and apprentices in different parts of the State—loaned them capital to commence business for themselves, and laid the foundations of their future prosperity with his own hands.

He changed his location to Madison, and then, instead of lending out his money at from 30 to 50 per cent, as he could have done, and as the law at that time permitted, he invested it in unimproved real estate, in the vicinity, developed a large water power, built mills after the best models—gave constant employment and good wages to a great number of laborers—cultivated his lands, opened streets and highways—introduced choice kinds of fruits and grains, and improved breeds of stock; in short, he became a marked example to others in like pursuits, in the neatness, system, and thrift of his husbandry. Madison has received a new impulse from his investments and enterprise, and the surrounding country is benefitted by his improvements. He has encouraged, in every way, the settlement of the country, and was among the first to welcome the immigrant, and if need be, give him a helping hand.

In all his interests, feelings and sympathies, he is identified with Wisconsin, and a friend to all her improvements. He is kind and affable to the poor, and contributes to public charity, on desire. He is rich, and he ought to be, for he "freely gives." All his business transactions in this State, for the last 12 years, prove his sound and enlightened judgment, discriminating and comprehensive knowledge of finance and trade, his promptness, and integrity, and his success is not attributable to *luck* or *chance*, but was the legitimate result of means, wisely adapted to the end he sought to accomplish. He has always met his engagements, and paid the "full face of his paper." He is emphatically an instance of a man's becoming rich by "attending to his own business."

In his manners he is plain and unobtrusive, and in his purpose, independent and inflexible. Cool and dispassionate, he "thinks twice before he speaks once." He is too well proportioned, intellectually, to be a *genius*, as well as physically, to be a *prodigy*. He has never seen a participation in politics, and has never yet found time to be a politician. He has been far more useful to society than if he had been an office-seeker, and has chosen rather to do his own business *well*, than seek to do that of the public *poorly*. He is too manly to be a demagogue, and has never engaged in the business of "wire pulling." He never sought an office in his life, and never had one—that he did not fill with honor. He was out of the nomination for Governor, and is now a candidate only by the urgent solicitations of his personal friends.

This is L. J. Farwell *now*, and if it is asked what he will be, I answer—he will soon be Governor of Wisconsin.

A DEMOCRAT
Who has known him since 1837.

PUSH ON THE RAILROAD!—The Grant County *Herald* says truly:

The lower country can never secure the commerce of the Northwest; it must all go East by the Lakes—they are able to bid the highest for the reason that their demand is greater. What nonsense for us to look to the South for a market, while the East has dedicated her capital and enterprise to the promotion of Northwestern Commerce. We say again, that the East must have our trade; and that before five years Milwaukee and Chicago will exhibit such stacks of Pig-Lead as now line the wharfs at St. Louis and New Orleans.

Our friends of the South Western portion of the State are hard at work to secure the route of the Railroad through, and to their different towns, and we doubt not that they will be met with a liberal and accommodating spirit on the part of the Company. The Western trade *must* be brought to this City.

POST OFFICE STATISTICS.—The Postmaster at Frederick, Md., estimates that during the quarter ending September 30th—being the first quarter under the new cheap postage law—the number of letters received and sent from the Frederick office, amount to—prepaid, 35,049; not prepaid, 16,226; total, 51,275. During the preceding quarter, ending June 30th, under the old law the figures stood: prepaid, 8,520; not prepaid, 44,439, total, 52,963. Showing a diminution under the new system of 1688 (3 per cent.) in the whole number of mailed letters; while the number prepaid is more than four to one; and the number not prepaid is reduced to nearly one-third. There is already an increase of revenue at that office.

☞ The N. Y. *Herald*, the new organ of the "democracy," thus replies to the intimation of the Richmond *Enquirer* that the "Houston Correspondence" was *bogus*:

THE DONALDSON CORRESPONDENCE.—We are sorry the Richmond *Enquirer* will not appreciate our motives in publishing this correspondence.—There is no mistake about the genuineness of the letters to Donaldson and Greer. What will the *Enquirer* say, if the convention called for next June should be held, and nominate a leading candidate of the West for the Presidency? Would it like to have two democratic candidates in the field?

GRANT CO. WHIG NOMINATIONS.—The Whigs of Grant County have nominated for the State Senate, JACOB D. MERRITT; for Clerk, WM. R. BEACH; for Treasurer, WM. T. ESSEX.

The Convention in the 4th Assembly District nominated CYRUS SARGENT for Representative.—Mr. S., however, was compelled to decline, not being eligible to the seat.

The Whigs of Grant are up and doing.

CENSUS STATISTICS.—MASSACHUSETTS.—Total number of families, 192,679; white males 484,281, do females 501,420; free colored males 4,316, do females 4,481; total population 994,499.

KENTUCKY.—Total number of families 132,920; white males 392,849, do females 368,848; free colored males 4,771, do females 4,965; total free population 771,424; Slaves 210,981; total population 982,405; federal representative population 898,012.

☞ The Free Soilers of the Assembly District composed of Troy, East Troy, and Spring Prairie, Walworth County, have nominated J. H. COOPER, of the latter town, as their candidate for Assembly.

Party Intolerance.

The Sauk Co. *Standard* does not seem to be particularly pleased with the manner in which the Hunker press is "kicking" out the *free soilers*. Alluding to the assertion of the Kenosha *Democrat* that the "heresy" had been kicked out, the *Standard* says:

The intolerance of some people is almost beyond endurance. We are democrats. We stand on the ground on which the democratic party, as a party, have stood for years past. We have not changed in the least particular. Neither have principles changed—the votes of 46 men can never make error assume even the appearance of truth. But because some designing men have succeeded in stifling the true sentiment of the Wisconsin Democracy, and obtained a kind of passive assent on the part of the Convention, to an old National Platform, quite inapplicable in many respects to our state affairs, a few Hunker papers have taken it upon themselves all at once to tell us who shall and who shall not be considered Democrats. Now we should suppose, naturally enough, that those who had abandoned the old established bases, and proved recreant to time honored principles, were the troublers and schismatics; while those who still contend for the same principles for which the party have labored, and with which they have conquered, are the true democracy; and surely this talk of "kicking out the free soilers," comes with a bad grace from a portion of the same party, when the party to be "kicked out" are clearly in the majority.

A "BLACK SWAN."—The Buffalo papers are noticing the musical achievements of a young colored woman who is about to give series of Concerts in that city. The *Commercial* of Saturday says:

"Those who heard her, came, we believe, to the unanimous conclusion that she was next to Jenny Lind, at least in her vocal powers. She has a great compass of voice—rising and falling from the highest to the lowest tones, with the greatest ease and rapidity, with 'intonations softly sweet, and anon thrilling and startling.' We understand that she will give a concert in this city at an early day—probably next week."

WELSH RELIGIOUS PAPERS.—Rev. Mr. Chidlaw, Agent for the American Sunday School Union, who is a Welshman, stated recently that the number of Welsh emigrants in this country is about 200,000. Among them circulate the following religious papers, published in their own strange tongue:—*The Cyfaill*, (Friend,) a Calvinistic, or Whitefield Methodist paper, published in New York; *The Cenhadwr*, (Missionary,) Congregationalist, published in Remsen, Oneida Co., N. Y., where also is published a general newspaper, called *The Drholydd*, (Eclectic); *The Seren Orllewinol;* (Western Star,) Baptist, published at Pottsville, Pa.; *The Drych*, (Mirror,) N. Y.

DOUGLAS' BID FOR SOUTHERN VOTES.—Senator Douglas, in the course of his late address at the New York State Fair, put in the following bid for Southern votes for the Presidency:

"Sugar from cane is produced to a great extent in the United States, but a larger portion is yet imported from foreign countries. Whether the United States will ever be able to produce the quantity required for their own consumption remains to be seen, and will, in all likelihood, depend on the *probable annexation of more Sugar growing States to the Union*."

We are waiting to see the bids of Messrs. CASS and BUCHANAN.

MAMMOTH FRUIT.—The Geneva N. Y. *Courier*, says:

Mr. Jacob Cooper of Phelps, has placed on our table two pears, the most enormous in size we ever saw or heard of. They weigh two pounds each, and measure 14½ inches the shortest circumference, and well proportioned.

We knew that old Ontario was "some" in the line of fruit, but object to believing the above, until our friend Cleveland sends us a specimen. Are there no more of the same sort?

TIME WORKS WONDERS.—The Toronto *Examiner*, a leading Canadian paper, says:

We are free to confess, although we have not before alluded to it, that there is not, in our opinion, a man in Canada more deserving of a seat in the Cabinet than William Lyon McKenzie.

NEWS BY THE ASIA.

FRANCE.—Serious democratic disturbances are alleged to have broken out in the Cher. An armed force had left Paris for St. Armand. Several arrests have taken place. Among the persons are some who are understood to have been connected with the great fire at Metairies Iron Works.

The department abounds in secret societies, where oaths are administered.

The conductors of the Evenement and La Presse, the journals seized a few days since, have been each condemned to six months imprisonment and pay a fine of 10,000 francs.

The commercial accounts from Paris show a dull feeling, and the departments are even worse.

HOLSTEIN.—The Schlezwig and Holstein affair remains unsettled and promises to again become troublesome.

AUSTRIA.—The failure of the Austrian loan has caused the deepest mortification at Vienna.

RUSSIA.—The line of railway between St. Petersburg and Moscow is to be open for traffic on Nov. 15th.

THE AUSTRIAN ARMY *vs.* THE CONSTITUTION.—The Prince Schwartzenberg, Military Governor of Lemberg, announced to his officers in the following remarkable terms, the Imperial ordinances of the 20th of August:

"Gentlemen—I have to inform you that the army of his Imperial Majesty has obtained another victory. I have in my hands the Imperial orders abolishing the constitution, and all that appertains to it. This is very good news, but I must request, gentlemen, that you will not display your joy in public, lest any demonstrations against the government should ensue."

It will be seen that the besotted adherents of despotism declare in so many words, that the suppression of constitutional government in Austria, is the work of the armed force. The people will remember this fact!

Tariff Facts.

Every class of American workmen suffer from the British Locofoco Tariff of '46; but the Iron-Workers are the chief sufferers. In 1843, we imported 7,148 tons of British Pig Iron. Our importations in 1849, under the Tariff of '46, amounted to 96,238 tons!

In 1843, we imported 21,336 tons of British Bar Iron. Our importations in 1849, amounted to 228,624 tons!

The total exports of British Bar Iron in 1843, was 176,149 tons. In 1849, it amounted to 376,117 tons. So that the increase from '43 to '49, was 28,000 tons less than the increase of importations to this country. While our own Iron Workers are bankrupt, we are enriching the British manufacturers!

In 1846—before the Tariff of that year went into effect—the imports of dutiable goods into the city of New York, in the month of September, amounted to $5,272,923. During the same month of the present year, they reach the enormous sum of $10,053,176.

The imports last year were deemed ruinously large, those at New York, for the first three quarters of the year, amounting to $96,171,132. But the imports of the present year, at the same point, during the same period, amount to the enormous sum of $107,386,216—an increase of $11,221,784. Is it strange, with such facts before us, that there is a stringency in the money market?—*Albany Eve. Jour.*

Shipwreck on Lake Superior! Loss of the Monticello!

INTREPID CONDUCT OF MR. WESTBROOK!

By passengers upon the propeller Monticello, (apprehensions for the safety of which have been heretofore expressed,) we learn that she was discovered to be leaking badly, soon after leaving the Ontonagon, and notwithstanding the incessant exertions of passengers, crew and officers, she continued to settle until her fires were put out.—The terrific gale, which was experienced here two weeks ago last Friday, was blowing, and Capt. Wilson had no resort left but to set his sails, and endeavor to reach Copper Harbor; finding that to be impracticable, he made for the nearest shore, and beached her above Copper Harbor in two fathoms of water. The passengers were saved by the intrepid coolness of Mr. Westbrook of St. Clair, who took a rope to the shore through the surf, in doing which he was *eight times* swamped! By the means of this rope, the lives of all on board were saved!

The propeller belonged to Col. McKnight, and was insured for about $11,000. She will be a total loss, as well as her cargo, which was 30 tons of copper.—[Detroit Advertiser.

MOLLY STARK'S BONNET.—In the window of Mr. Collin's bonnet store in Central building, we observed a very odd looking article, which, to the best of our judgment, must have been made for a bonnet. On inquiry we ascertained that it was a bonnet made about a hundred years ago, and was once the property of the veritable Molly Stark, who didn't sleep a widow on the night of the battle of Bennington. The fabric of which it is constructed is silk warp and filled in with alternate stripes of straw and silk. Its shape bears not a very distant resemblance to a peacock with his plumes spread. Its pattern is supposed to have been Scotch, and it is stated that the original cost was fifteen to twenty dollars. It was doubtless in its time one of the bonnets of old Derryfield.—[*Manchester Amer.*

City Matters.

ACCIDENT TO THE ARCTIC.—A telegraph dispatch, received last evening from Chicago, states that the *Arctic* has broke down, and that the *St. Louis*, with her mails and passengers, may be expected here this morning.

A MUSS.—We learn that a disturbance took place at a tavern called the Mexican House, on the Green Bay road, a short distance from town, late on Tuesday night, and that a German was struck on the head and badly injured. There were a couple of arrests yesterday in consequence.

OIL PAINTINGS.—The Oil Paintings referred to a day or two since as being opened at Messrs. SEA & SHERMAN's, are to be sold on Monday next, 20th inst. They are now to be seen at the rooms, No. 160 East Water St.

CITY LOTS AT AUCTION.—WALL sells this morning a large number of eligible lots in Sherman's addition. Those who wish to purchase will be on hand, and as many of the lots are very desirable a very spirited bidding is expected.

TRIAL OF SAFES.—One of Davidson's Safes underwent a "fiery trial" of three hours yesterday. The furnace was up to a white heat. One of Herring's was in the same fire. Davidson's was unscathed—the paper inside as cold as if it had been surrounded by an ice-berg instead of a fiery furnace. The papers in Herring's were also unscathed, but warm.—[*Albany Jour.*

Messrs. WILLIS & HILL, at the Yellow Warehouse, are agents for Davidson's celebrated safe, referred to in the above article, and advertised in our paper under the name of "Covert's Patent Fire King". Such cases as the above test a safe to perfect satisfaction.

THE MACEDONIAN.—The old frigate *Macedonian* captured from the British in the last war, has just been taken into dry dock at Brooklyn, to be razeed into a corvette. She is to carry 20 eighty-four pounder shell-guns on her main deck, and two long pivot-guns of 12 inch bore, on her spar deck.

TROTTING.—There is to be a trotting match for $200, mile heats, best 3 in 5, this afternoon, over the Cold Spring Course; and trots for purses of $50 and $75 to-morrow and Saturday.

At Green Lake, on the evening of the 6th inst., JOHN HARTLEY, a native of Canada, aged about 26 years.

His neighbors were not unmindful of their duties towards a sick stranger. His attending physician was watchful and attentive, and he received every degree of kindness and regard from Mr. Edmund Clark, and his wife and family connection, at whose house the deceased boarded. His remains were deposited in the grounds of the Episcopal Church.

Peace to his spirit, as onward it flies,

WISTAR'S BALSAM OF WILD CHERRY

Imparts new vigor to vital action, and relieves the system by opening the pores of the skin, and promoting the secretion of mucuous matter. Its action is sudorific, sedative and expectorant, by opening the pores, allaying irritation, and by rendering the expulsion of mucuous matter easy. . .

Those who take the Balsam will feel immediate relief from the distressing irritation that accompany affections of the respiratory organs. The pores have been closed, the Balsam opens them. The Lungs suffer from irritation, the irritation is soothed; the pulse is violent and feverish, they are softened, and the mucuous membrane is relaxed of its engorgement with rapidity and ease. All by the use of this delightful remedy.

IN calling attention to Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla, we feel confident that we are doing a service to all who may be afflicted with Scrofulous and other disorders originating in heredity taint or from impurity of the blood. We have known instances within the sphere of our acquaintance where the most formidable distempers have been cured by the use of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, etc.

It is one of the few advertised medicines that cannot be stigmatized with quackery; for the "Yellow Dock," and the "Sarsaparilla" are well known to be the most efficient (and at the same time harmless) agents in the whole Materia Medica, and by far the best and purest preparation of them is Dr. Guysott's Yellow Dock and Sarsaparilla.

Capital Conviction. Conklin has been found guilty of arson in the first degree for firing Sayre's barn, connected with his house.

It was shown on the trial that Conklin was the ringleader of the incendiaries.

The District Attorney states that persons holding property in the city were under indictment, and would be tried as soon as evidence could be collected. James T. Sayre, son of a highly respectable merchant in the city, was declared by Newell—State's evidence—to have been accessary to several fires; among others, to burning his father's barn. He is absent from the country.

Conklin was sentenced to be hung on the 21st of November next. Considerable excitement prevails.

Great preparations are making for the reception of Kossuth on his journey to Washington.

From Washington we learn that the President [illegible]

The news of Owen's [illegible] confirmed.

Correspondence of the N. Y. Express.

Washington, Oct. 8.

President Fillmore on Monday, issued orders to the District Attorney of Northern New York, directing the prosecution of all [illegible] respective persons [illegible] aided and abetted in the [illegible] at Syracuse.

The President is determined that these reckless trampler upon law and [illegible] shall be dealt with according to the [illegible] of [illegible] and justice.

I am advised by letter from high authority at Syracuse, that a number of persons of [illegible] are identified as leaders in the rebellious transaction.

I am also advised from Syracuse, that a complaint exists against Commissioner Sabine for his unnecessary adjournments and delay, and for his temporizing and exhibitions of timidity, also for his indulgence before him of the Abolition lawyers in inflammatory speeches not germane to the record.

However much or however little cause there may be for these complaints, it is certain that this same Mr. Sabine [illegible] very few years ago was a known Abolitionist, and it is certain, furthermore, that he is now an enemy to the Compromise Measures in general and the Fugitive Slave law in particular, unless a very recent change has come over him.

The District Court of Northern New York is probably not in possession of these facts. I can hardly think that the distinguished chief of that tribunal would knowingly suffer a man of this stamp to hold the post of U. S. Commissioner under his appointment.

AGENT FOR PITTSBURGH GLASS. oct7

PHILLIPS' UNITED STATES

Fire Annihilator Agency.

THE undersigned respectfully announces that he is the authorized Agent for the English Patentee for the disposal of Phillips' Fire Annihilators in the Counties of Milwaukee and Racine. His agency, based upon a certain proprietary interest in the Patent, will be conducted in connection with a company of operations, to be known as

"Phillips' United States Fire Annihilator Company."

Of which Hon. ELISHA WHITTLESEY, 1st Comptroller of the United States Treasury at Washington, is the President, Hon. JOHN M. CLAYTON, of Delaware, is Counsel for the Company, and P. T. BARNUM, Esq., General Manager and Secretary.

The prices of Machines and of Charges, are as follows:

SIZE OF MACHINE.	PRICE OF MACHINE.	PRICE OF EACH SPARE CHARGE.
No. 1	$10	$1 25
No. 2	20	1 75
No. 3	25	2 50
No. 4	30	3 00
No. 5	35	3 50

☞ Freight from New York added to the above prices.

The machines can be made to order of any size at proportionate prices.

No. 1, (the smallest size) is valuable for extinguishing fires in chimnies and small apartments.

No. 2 is used with effect in larger buildings, and at the outset of a fire, and has the advantage of being the most portable of the sizes deemed available for houses.

Nos. 3, 4 and 5, are the Hand Machines of greater power. No. 3 can be carried by a lady. Nos. 4 and 5 can only be handled, to advantage, by a man, and are preferable for large establishments, as they may be effectually used for street fires.

In addition to the Hand Machines there are Street or District Annihilators mounted upon wheels, and intended to be drawn by firemen in the usual manner. These machines possess continuous power, and will emit, through a hose, a stream of vapor for a [illegible] for any desirable length of time.

The Portable Machines are so simple in construction that they are not liable to get out of order, and their application is so easy that any person may effectually use them. The chemical charges may be preserved any length of time. These Machines furnish an infallible protection against the destructive consequences of fire, as they are always ready for constant use, and contain within themselves the means of extinguishing accidental fires, as soon as discovered.

The Fire Annihilator is made to evolve a humid vapor, and to emit it with great expansive force, so as to penetrate into, to search out, and extinguish the fire. But, while the vapor emitted is destructive to fire, it is innocuous to life, and even tends to purify an atmosphere charged with smoke, nor does it injure the furniture or goods which may have escaped the action of the fire. And in this capacity the machine constitute the best fire escape, and the means of rescuing property from the flames the world has ever known; even the smallest machine, inadequate to the extinction of a large fire, will enable the bearer to enter the flames and rescue life and property with perfect impunity.

The merit and practical utility of the Patent Fire Annihilator have been thoroughly tested, and are acknowledged by the most eminently scientific men, and the machines have been by command, supplied to the Royal Palaces of Queen Victoria. The Crystal Palace of the World's Fair, the mansions of the Nobility, the principal Manufactories of Great Britain and France, Theatres, Churches, and other public places, as well as Steamboats, Shipping, &c., now have them in constant use.

One of the great advantages of this invention will be the immediate reduction it must occasion in the Rates of Insurance; and the underwriters will at once perceive that their profits must be greatly enhanced by the extraordinary diminution of destruction effected at every conflagration.

On Oct. 7th instant a Register will be opened at the office of the Company in Milwaukee, (due notice through the Press will be given of its location) for the reception of subscriptions for machines, and every person will be served in regular rotation, according to priority of application. When sent by mail, the application will bear date with the day of depositing in the Post Office. The price of the machines, in all cases to be paid at the time of subscribing, and seven per cent. interest will be allowed on any time of any the said money remaining over 20 days before the order is supplied. In this arrangement, however, a priority will be given to all City Corporations, and proprietors of large manufactories, where great risk from fire exists, and where the premium required for insurance is high; also to these 'ers, hotels, and large steamers, where many human lives are jeopardized. Every machine will be stamped with the name of the Company; and as the company are determined to accommodate the whole public, by supplying machines, of the most durable materials, and chemical charges of the most approved manufacture, to the above reasonable prices, they will prosecute, to the whole extent of the law, all attempts to imitate, counterfeit, or infringe upon said patent, as well as every person who may purchase and use such imitations. All importers of Foreign Machines, or those having them in possession, will be prosecuted.

Each machine will be stamped with the name of the county or city for which they are sold, and they can be used in no other locality without a written permission from the Agency. Nor can any purchaser of a machine possess the right to sell the same in any other town, unless he has purchased the territory where said machine is to be sold. Every purchaser of a machine will receive a certificate authorizing him to use the same in the town for which it is purchased.

The subscribers having, in connection with other members of the company, made the strictest investigation and experiments, and being perfectly convinced that this wonderful invention will accomplish all that is claimed in its behalf, and thus become an indispensable article for every house, manufactory, shop, or other place where fire is used or may be introduced, have accepted the above appointments, and are now prepared to fulfill their duties to the public to the best of their ability.

ELISHA WHITTLESEY, Pres't.

Agent for the counties of Milwaukee & Racine.

TAKE NOTICE!
PATENT
BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used.

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and sold over (under this Patent) TWELVE THOUSAND Bedsteads within two years, and that in the [illegible] cities,

ONE HUNDRED THOUSAND

Have been made and already sold. Nothing but the truth and simplicity the advantages, beauty and economy of this Patent over all other now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; [illegible] Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Madison, O.; Neil House, American House, Capitol House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM

at the [illegible] Fair in New York, N. Y.; New York State Fair; State Fair, Erie county; Buffalo; [illegible] State Fair, Wayne county, O.; [illegible] county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Factory or Warehouse of J. H. Birchard, No. 21 Spring st., [illegible] Milwaukee, where applications for Rights for Towns, Counties or Countries will be promptly attended to.

Persons wishing to have their old bedsteads converted, can have their names to Mr. Birchard above place, who will call and [illegible] with promptness. [illegible] these Bottoms are considered preferable to Lounges or Trundle Beds, and will be inserted for the cost of [illegible]

In conclusion, we are free to state to a discerning public that those using the above Bed Bottom, and trying the [illegible] will award to it the merit of a never-failing the sweetest quality of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from an enlightened public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all other consists in the elasticity of its springs, the simplicity and durability of its structure, and what is of the greater importance, these Bedsteads are "bug proof."

We feel, too, that for cheapness it does not cost any more than the common wood screw, the expense of the cord and sacking bottom being saved, and for practical utility it is at least superior to all kinds heretofore used. We would therefore cheerfully recommend it to the Citizens of Milwaukee, and the public generally.

The superiority of the Belting to Leather is acknowledged by all who have used it, for the following reasons:

1st. The perfect equality of width and thickness, which it [illegible]

2d. No degree of heat under 300° Fahrenheit injures it; it remains flexible in any degree of cold, and is not affected by moisture.

3d. It is of great strength and durability, will not stretch, does not slip on pulleys, a gain of power is obtained, and when adjusted to machinery does not require alteration, as is the case with leather or any other.

4th. It is from 30 to 40 per cent. cheaper than leather.

The following certificate from a gentleman well known in this community, is appended:

Shaw's Mills, Milwaukee,
December 14, 1850.

I certify that I have used the Metallic Rubber Belting for the past three years, for driving a Smut Mill, running at a speed of about 700 revolutions per minute. It does not slip on the pulley, will not stretch, nor does it require alteration. I consider it preferable to leather, having used both. W. S. EASTON.

Certificates from all the principal Eastern Manufacturers, Millers, Machinists, &c., &c., can be seen at the Agency.

No hazardous risks will be taken in either department, nor more than $2000 in one risk or in a circle of eight rods.

The company possess both the advantage of the Stock and Mutual plans. Any person insuring may pay once and be insured, or take a cash premium in [illegible] without a premium note. Stores may be added or changed, out-buildings erected, if fifty feet from dwellings, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case of loss, the full amount of damage, not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insurance for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of five cents on each $100 for five years.

In publishing our safe, cheap and popular plan of insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $9000 in the treasury, and 65 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington's [illegible] to. They reported to the Comptroller, Jan. 1, 1850, that their losses and expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making this actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those or other with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to crowd into the Valley of the Mississippi where they are not so well known for losses. Yet Bishop and [illegible] Wilcox now publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the thing to judge from.

Since the above reports, the Montgomery have raised a tax on their premium notes.

Now we would ask the public candidly, which of these three companies is it to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with a surplus on hand, sufficient to pay all losses and expenses without ever resorting to a tax?

KING'S EVIL—CASE OF O. M. LEONARD.—If the reader will observe, he will see that in [illegible] case the patient has tried nearly every physician within his reach, and nearly every remedy; but when he hit upon Guysott's Yellow Dock and Sarsaparilla, the cure is immediate!

Prof'd [illegible] of the World, of two years standing, cured by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, after every other known remedy had been tried without relief.

Washington, Ohio, February, 1849.

This certifies that my wife, aged 27 years, has been suffering under the above complaint for 5 years nearly all of that time confined to her bed. I have for 4 years constantly employed the best medical talent that could be procured in this section of the country, without any benefit whatever. I have also purchased many [illegible] recommended for the cure of such disease, all of which proved worthless.

In the spring of 1848, I was induced by my friends to try Guysott's Yellow Dock and Sarsaparilla, which was used [illegible] After she had used it for about 4 weeks, it was evident to all that she was improving, and from that time she improved rapidly, and gained flesh and strength, until the disease was entirely removed, and she is now enjoying most excellent health.

Bowling Green, Dec. 1, 1849.

Messrs. S. P. BUSSELL & Co.—Gents: Some time in 1845, I was attacked with King's Evil in my arm, which became so sore that I could not use it, and in 1846 an ulceration set in. I employed different times each physician of [illegible] within my reach, and all said that my arm must be amputated. From the shoulder to the forearm, my arm was full of running sores—one of them as large as my two open palms. I then tried an Indian doctor, who removed the [illegible] but could not heal my arm. My strength at this time was completely exhausted, and my person much exhausted. I continued in this state until the summer of 1848, when I saw an advertisement of Guysott's Yellow Dock and Sarsaparilla, which I read attentively, and sent for one bottle of the article. After using it a few days, the discharges from my arm increased, and assumed a light color, and less offensive odor. I sent for a second bottle, and while using it I found my strength increasing and the discharges from my arm decreasing. I continued using it until I had used six bottles, though I felt myself perfectly cured before I used the sixth bottle. Since that time I have not felt any pain in my arm, nor the sores have re-appeared, and I have no reason to doubt that it is thoroughly cured, for I can labor with it as well as I ever could.

"Guysott's Yellow Dock and Sarsaparilla" above cured me. I took no other remedy while using it, and had I it at the first appearance of the malady, I fully believe it would have saved me four years of suffering. And I most earnestly recommend every person suffering under any similar disease, to use Guysott's Yellow Dock and Sarsaparilla, which will restore them to health.

Yours, in gratitude,
O. M. LEONARD.

PATENT MEDICINES,

Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr. and H. Bosworth & Sons and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the body of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined seventeen years since to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidentially appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" The [illegible] it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, it has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of Agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 20, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON,
E. STEVENSON.

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

L. P. YANDELL, M. D.

Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

JAMES M. MOORE, M. D.

Winchester, Ky., Feb. 1, 1848.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla

Louisville, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

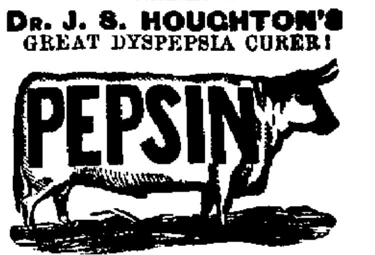
● Another Scientific Wonder!

DR. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!



THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats [illegible] not fit them. By this ingenious contrivance, the very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; surpassing any $5 Hat sold in this city.
